# Included as standard

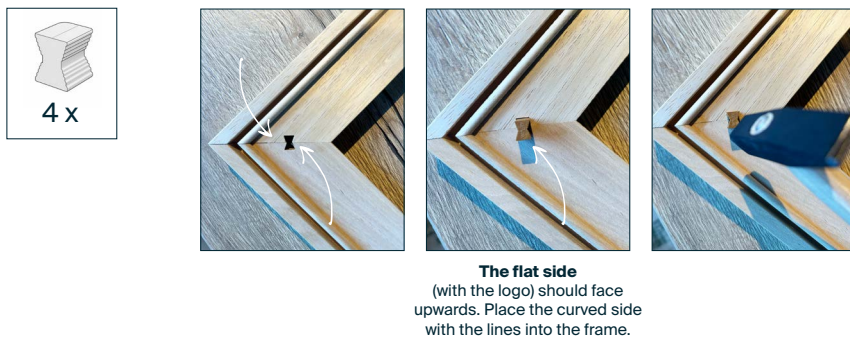

Optional: set of sound-absorbing panels. **Please note:** The frame is easy to assemble. However, once fully assembled, the frame can no longer be taken apart.

## 1. Lay out the frame on a flat, clean surface

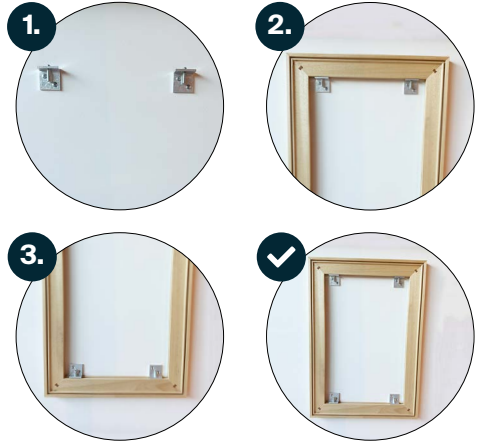

## 2. Place the frame sections against each other and tap the butterfly connector into place

Carefully tap the butterfly connectors into the frame with a small hammer. Keep the frame corners firmly pressed together while doing this. Make sure the butterfly connector no longer sticks out.

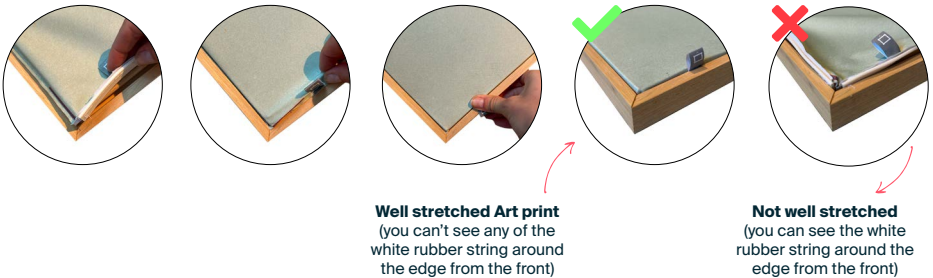

### 3. Screw the mounting brackets to the wall

1. Screw two mounting brackets to the wall for the top of the frame.
2. Place the frame on the two brackets.
3. Screw the two mounting brackets on the bottom.

### 4. Slide the Art print into the frame, starting at the corners

- Start at the corners, this will make it easier to get the Art print into the frame.
- Make sure to stretch the Art print so that you can't see any of the white rubber string around the edge from the front.

### 5. Optional: position the sound-absorbing panels behind the Art print

Place the panels with the harder side against the wall.

## 6. Enjoy your artwork

It's easy to switch out the Art print and create a different mood.
